

## How to Open and Close Gates in StorLogix

### Opening and Closing Gates in StorLogix

---

To control the gates:

1. Click on your **Tools** in the home screen. (Alternatively, you can click on the three bars in the top left corner to bring up the Navigation Menu.)

2. The page will be directed to the Open/Close gate page by default. Here you can choose which Gates to open or close.
  - a. Click on the checkbox next to the gate name to perform the action.

- b. \_\_\_\_\_  
(Ordered from left to right)
  - i. Open
  - ii. Close
  - iii. Hold Open
  - iv. Hold Close

3. You can also control multiple gates at a time by clicking on multiple checkboxes and clicking on one of the 4 action buttons.

The screenshot shows the PTI Security Systems web interface. At the top, there is a yellow header with the 'STORLOGIX' logo on the left and user information 'Administrator' on the right. Below the header, there are navigation tabs: 'Open Door/Gate', 'Event Log', and 'Access Tester'. The main content area features a search bar labeled 'Search by Name' and a table of gate devices. The table has columns for 'Name' and 'Status'. The first row is selected with a checkbox. At the bottom right of the table, there is a pagination control showing 'Items per page: 10' and '1 - 8 of 8'.

Name	Status
<input checked="" type="checkbox"/> (0, 6) Request to Exit - Device 7	Closed
<input type="checkbox"/> (0, 7) Request to Exit - Device 7	Closed
<input type="checkbox"/> (0, 8) Request to Exit - Device 120	Open (Held)
<input type="checkbox"/> (0, 9) Request to Exit - Device 12	Closed
