

How to set up StorLogix Cloud Adapter

StorLogix Cloud Adapter Installation Guide

1. Setting up the Cloud Adapter

- a. You will receive package with the following contents:
 - i. (A) StorLogix Cloud Adapter Device
 - ii. (B) Power Adapter
 - iii. (C) USB Cord

2. Installing the cloud adapter

- a. Connect the USB cable to the Cloud Adapter and to the Falcon XT. (C to A)
 - i. There is a small chance the USB port is in use. If there is already a cable in this slot do not pull it out. You will need to stop the install process for the cloud adapter and notify the installer. If the USB slot on the Falcon XT is not already in use, proceed to the next step (2 b).
- b. Next, connect an ethernet cable to the Cloud Adapter device. You should find the ethernet cable to the right of the USB port on the Falcon XT (D). Pinch the tabs on the port to release the ethernet cable from the Falcon XT. Insert the cable into the port on the Cloud adapter (B).
- c. Finally, connect the Power adapter to the port on the side of the device (C) then to nearest grounded power outlet.
