

KEYPADS

ESSENTIAL ACCESS CONTROL SOLUTIONS

PTI keypads provide access solutions for self-storage owners and operators to manage customer and visitor traffic through secured entryways via card and code access. Installed almost anywhere, PTI keypads allow for self-storage facility owners and operators to automate access management and extend hours of operation while maintaining monitoring capabilities.

KEYPAD FEATURES

- High resolution, two-and four-line display options with a 140-degree viewing angle.
- Anti-vandal and weatherproof keypad with backlit numbers.
- Multiple language support, internal relays, inputs, and Wiegand readers.
- Highly configurable based on your specific needs.

KEYPAD BENEFITS

- Provides an additional layer of security by granting access only to authorized individuals.
- Provides operators the ability to control access remotely.
- Indicate an impending theft or costly cooling or heating losses when a door has been propped open.
- Justify higher rental rates.

SYSTEM CAPABILITIES

Easy configuration through the keypad or StorLogix software.

Flexible mounting configurations for gate keypads, building access, and elevator keypads.

Seamless integration with mobile access solutions.
