

Use the Serial Number List (below) to keep an organized record of all DorrBoss lock serial numbers, the appropriate transceiver, and their corresponding building and unit numbers. NOTE: Make copies of the Serial Number List.

- 1. Find the serial number on the DoorBoss Lock.
- 2. Write the Serial Number down in the DoorBoss Lock Serial Number column.
- 3. Record the Building Number and Unit Number in the next column.
- 4. Record the transceiver serial number of the DoorBoss Lock.

When the site adds or replaces components in the DoorBoss system, update the serial number list. Store the serial number list in a safe place location for future reference.

Doorboss Lock Serial Number	Unit Number	Transceiver Name	Doorboss Lock Serial Number	Unit Number	Transceiver Name

Doorboss Lock Serial Number	Unit Number	Transceiver Name	Doorboss Lock Serial Number	Unit Number	Transceiver Name
