# MOBILE SOLUTIONS

Providing tenants and operators with the convenience of a mobile app to access their facilities has become a standard in the self-storage industry. PTI gives self-storage owners and operators personalized mobile apps as a resource to enhance customer convenience, increase productivity, and distinguish their self-storage businesses in competitive markets.
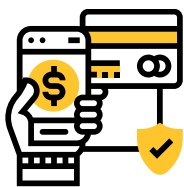

EASYCODE

Designed to help self-storage owners and operators create a seamless experience for tenants, the EasyCode tenant-facing mobile app provides tenants with the ability to open gates, doors, and view access activity from their mobile device. With over 2,000,000 activations to date, EasyCode is the most advanced access control application in self-storage.

SYSTEM FEATURES

- Multi-unit, multi-facility renters can use one account to view and store all access data
- Full integration with PTI Keypads, StorLogix Cloud, Door Alarms, and DoorBoss
- Seamless renter sign-up process
- White glove facility onboarding
- Customization and logo placement available

TENANT BENEFITS

MOBILE PAYMENTS
Enjoy the convenience of an in-app payment link to your mobile-friendly website

1-CLICK ENTRY
Tenants can access the facility gate, doors, and elevator with the tap of a finger

REAL-TIME ALERTS
Tenant activity log keeps track of facility visits and can notify of any unusual activity
