

# STORLOGIXMOBILE

## Operator - Facing Access Control Solutions

The StorLogix Mobile app by PTI Security System™ puts the unequalled power of PTI's flagship access control system in the palm of your hand. View, control, and interact with your StorLogix Cloud software and system controller from anywhere in the world.

## STORLOGIX BENEFITS

### RECEIVE CUSTOM NOTIFICATIONS

StorLogix Mobile helps protect your facility with ability to create customized notifications to alert you of unusual site activity or security issues in real-time

### REMOTE PROPERTY MANAGEMENT

Gain visibility and improve your customer experience by opening gates and doors, viewing site activity, and responding to security concerns instantly

### BOOST OPERATIONAL EFFICIENCIES

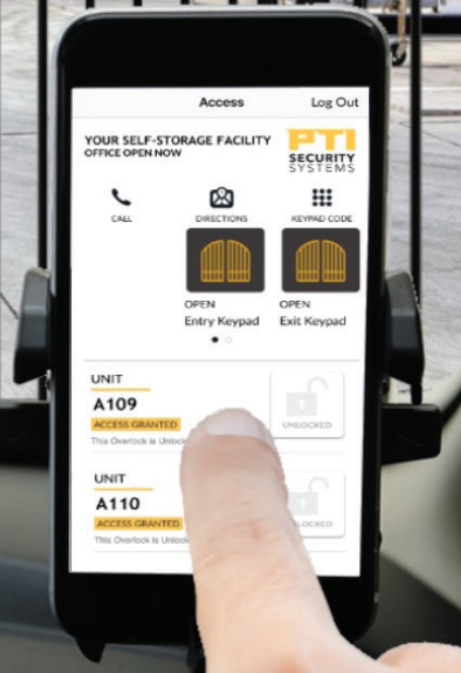

From performing lock checks to creating reports, StorLogix Mobile helps you automate operational tasks so you can save money and focus on driving revenue

*“StorLogix Mobile is an easy remedy to everyday challenges faced by several self-storage owners and operators. Every self-storage operator and their management team should have access to this amazing tool.”*

Access Control Technologies

# EASYCODE

## Operator - Facing Access Control Solutions

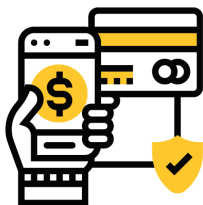

Designed to help self-storage owners and operators create a seamless experience for tenants, the EasyCode tenant-facing mobile app provides tenants with the ability to open gates, doors, and view access activity from their mobile device. With over 6,000,000 activations to date, EasyCode is the most advanced access control application in self-storage.

## EASYCODE FEATURES

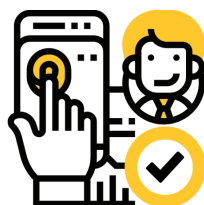

- Multi-unit, multi-facility renters can use one account to view and store all access data
- Full integration with PTI Keypads, StorLogix Cloud, Door Alarms, and DoorBoss
- Seamless renter sign-up process
- White glove facility onboarding
- Customization and logo placement available

## EASYCODE BENEFITS

### MOBILE PAYMENT

Enjoy the convenience of an in-app payment link to your mobile-friendly website

### 1-CLICK ENTRY

Tenants can access the facility gate, doors, and elevator with the tap of a finger

### REAL-TIME ALERTS

Tenant activity log keeps track of facility visits and can notify of any unusual activity
