

COMPLETE ACCESS CONTROL FROM THE ACCESS CONTROL LEADER

Since 1979, the self-storage industry has continued to turn to PTI Security Systems™ for complete and reliable access control solutions that can continue to grow and scale with their facility. The core of the PTI Solution lies within its fully integrated StorLogix Cloud platform that provides granular remote access to all facets of the facility and is fully capable of tackling single and multi-site facilities. In fact, PTI's software and fully integrated hardware components have become the standard by which all access control systems are compared. Trust your access control with the industry leaders who have decades of proven experience - **Trust PTI Security Systems.**

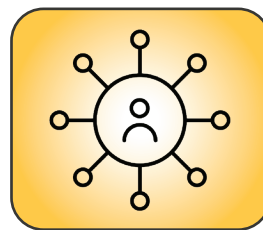

CLOUD-BASED ACCESS CONTROL

The heart of the PTI Solution lies in our cloud connections and our innovative and award-winning StorLogix property management solution.

40 YEARS OF PROVEN PERFORMANCE

PTI Security System has been the standard in the industry for over 40 years. Discover why operators continue to count on PTI for their access control needs!

FULLY INTEGRATED SOLUTION

All PTI components are designed to seamlessly connect together and provide operators amazing granular control down to the property, unit and device level.

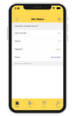

MULTIPLE LAYERS OF SECURITY

PTI systems are designed to provide operators options to customize their solution by adding additional layers of security based upon their need.

Contact a PTI Security Systems sales professional and discover how PTI can offer remote, 360° access property control while lowering net operating income and increasing the overall customer experience.

FLEXIBLE • SCALABLE • CONNECTED • PROVEN

PTI Security Systems' comprehensive approach for self-storage access control and security centers around the fundamental concept of layered security. Depending on the need, operators now have the option to provide tenants multiple levels of security to better adapt to the needs of the tenants while providing differentiation from other competing self storage facilities.
